9/10/2005		High Street		GLSD	Bad Odor	
9/12/2005		Wood Avenue		GLSD	Several E-mails regarding odors-see file log	
9/12/2005		Wentworth Avenue		GLSD	Odors from Chadwick to Moody Street	
2006						
7/6/2006		Wood Avenue		GLSD	E-mail: Very bad sewage odor with no added odor control (went via GLSD directly.)	
8/23/2006		Wood Avenue		GLSD	E-Mail: More odors on Monday the 21st, during the afternoon and also later about 9-0 p.m. In both cases, there appeared to be odor control added. Caller also reported them to GLSD via e-mail.	
2007						
8/4/2007		Wood Avenue		GLSD	E-Mail: 1st odor this year. Was away on vacation last two weeks of July. Strong odor; detection of odor control being used. Better than last year. Has not heard of anyone else complaining.	Per GLSD, there are several new facilities on-line. These include a new odor control system on the plant influent and septage receiving, and an upgraded aeration system on the secondary treatment system. Last fall, all the media in the "sludge-side" odor control system was replaced.
8/21/2007		Wood Avenue		GLSD	More odors yesterday, during the afternoon and also later, about 9-10 p.m. In both cases there appeared to be odor control added.	
8/29/2007		Wood Avenue		GLSD	The complaint is the odor events have been increasing. The latest 8:10 Tuesday AM 8/28. GLSD went out at 8:15, 8:25-8:50 and found little or no odors. Except near Clark St near De Rosa. Possible leachate odor from their site.	
8/30/2007		Wood Avenue		GLSD	Bad odors during the night.
